

# Richardson-Wilcox

Premium Garage Doors

## Protégé Series

Style and performance at an affordable price.

# Engineered for life

## Not only the price looks good.

The clean, classic lines of our Protégé panel styles will add instant charm and curb-appeal to your home. Authentic woodgrain texture embossed on the panels has the look of wood but the strength of steel. Add decorative insert windows and choose one of four contemporary colors to find the perfect look at the perfect price. A panel thickness of 1 3/8" provides an R-Value of 12.

## Not just another pretty face.

We make beautiful doors. We also care that what's behind them will keep your door worry and maintenance-free for years to come. In business since 1912, we have an established reputation for exceptional quality and unparalleled customer service. Our hardware components are made to the highest industry standards. Sections are constructed from high-strength galvanized steel. We believe in our doors and we back that up in writing with our LifeTimer™ warranties.

Track formed from galvanized steel and durable nylon rollers with zinc plated stems ensure smooth, quiet operation.

Torsion spring counterbalance with galvanized shaft and heavy duty bearings for years of trouble-free operation.

Authentic woodgrain embossing on the door's exterior adds visual appeal.

Neufoam™ technologically advanced polyurethane insulating core (R-value=12) keeps your garage warmer and quieter.

High performance linear hinges for added strength and durability.

Bottom vinyl weather seal runs the length of the door to help protect your garage from the elements.

## Insert some style.

Customize your door by adding decorative window options.\*

\* See the Richards-Wilcox Premium Windows brochure for options. Not all window styles are available in all door sizes. See dealer for details.

## Find your match.

Four contemporary colors to compliment your home's exterior detail: white, almond, taupe and brown.

## Steel is the new wood.

Authentic woodgrain texture embossed on panels gives you the aesthetic of wood without the cost or hassle of maintaining it.

## Weather the storms.

Built to withstand many different weather conditions, our doors have a continuous polyurethane insulated core, arctic-grade bottom seal and dual-seal section joints to help reduce air flow and lower your energy costs.

## Built to last.

Door sections are constructed from high-strength, rust-resistant galvanized steel and coated with a baked-on polyester paint finish. Which means your door will last a really, really long time.

## Peace of mind.

There are enough worries in life - your garage door shouldn't be one of them. When you choose Richards-Wilcox, you've chosen the best garage door you can buy and we'll back that up in writing with our LifeTimer™ Basic\* warranty.

\* Rust-through: as long as you own your home. Hardware/springs: 1 year. See warranty for complete terms and conditions.
