handcrafted wood doors

7000 Series

architectural details for homes of distinction

The 7000 Series wood doors combine the convenience of modern sectional doors with the classic appearance of swing-open carriage house style wood doors.

Our Amish craftsmen in Mt. Hope, Ohio, and our northwest wood artisans in Centralia, Washington, hand-build beautiful wood doors to your specification with thorough attention to every detail.

quality

As one of the largest makers of wood garage doors, we make a point to be involved in the complete lifecycle of every wood door. We use a combination of premium woods in our doors to enhance the look and performance. You can also specify a unique variety of wood if you choose.

Hemlock makes a superb painting surface. Cedar is an excellent exterior grade material, highly resistant to rot and insects. Mahogany has a tight smooth grain and is naturally weather resistant. No matter what type of wood you choose, the result is a fine quality, beautiful wood door that will yield many years of reliable performance.

Wayne Dalton offers a one year limited warranty on all 7000 Series wood doors. See full text of warranty for details.

choose your hardware:

Our decorative hardware collections bring out a distinctive, yet subtle, touch of individuality to your garage door.

People will notice your attention to detail and your striking good taste. Every piece is made from black powder coated steel. Additional accent pieces are available to match or complement your selection.

Knockers, corner brackets and clavos give a respectful nod to the decorative nails and studs craftsmen have used to accent their doors for hundreds of years.
